**Fees: FREE for members**

**\$40 membership fees for non-members to become member**

### **The Grid Control Workshop overview & agenda:**

#### **ETC 10g Grid Control Workshop**

##### **\*Products & Technologies:\***

Oracle Enterprise Manager 10g Grid Control Release 2  
Configuration Pack  
Provisioning Pack  
Diagnostic & Tuning Pack  
Data Masking Pack  
Change Management Pack

##### **Target Workshop Attendees:**

Oracle Administrators & Developers

##### **\*Workshop Outline\***

This workshop will provide attendees a solid understanding of and experience with:

- Oracle Enterprise Manager 10g Grid Control architecture and key benefits
- Grid Control framework's base ("free") features, including real-time monitoring, administration, automation and reporting
- Monitoring, diagnosing and tuning across multiple enterprise resources (e.g., hosts, databases, application servers and web applications)
- Configuration management, including measuring compliance, ensuring consistency and enforcing best-practice policies
- Automated provisioning, patching and cloning capabilities for both operating system and Oracle deployments
- End-to-end application service level monitoring, management and reporting
- Extended monitoring capabilities to include non-Oracle components
